___ has been certified by the Texas Department of Insurance as an Independent Review Organization. The Texas Worker's Compensation Commission has assigned this case to ___ for independent review in accordance with TWCC Rule 133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, all relevant medical records and documentation utilized to make the adverse determination, along with any documentation and written information submitted, was reviewed.

The independent review was performed by a matched peer with the treating doctor. This case was reviewed by a licensed Medical Doctor with a specialty and board certification in Orthopaedic Surgery. The reviewer is on the TWCC Approved Doctor List (ADL). The ___ health care professional has signed a certification statement stating that no known conflicts of interest exist between the reviewer and any of the treating doctors or providers or any of the doctors or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to the dispute.

CLINICAL HISTORY

___ is a 47-year old gentleman who has been having a long-standing lower back problem. He has had a previous lumbar laminectomy at L5/S1 with attempted fusion at that level. However, he has a pseudoarthrosis at the L5/S1 joint and has continuing low back pain following that procedure. These records indicate that he has been seeing ___, a neurosurgeon, who has requested approval for a three-level anterior and posterior lumbar decompression procedure with interbody fusion and instrumentation anteriorly and posteriorly. The carrier has not approved this procedure primarily because there is no documented information as to why the procedure is indicated.

REQUESTED SERVICE

A 360˚ lumbar fusion is requested for this patient.

DECISION

The reviewer agrees with the prior adverse determination.

BASIS FOR THE DECISION

The records submitted for review do not include any accompanying information with regards to the patient's history and his physical findings. There is no information regarding the length of the patient's symptoms, his neurological findings, his previous treatment, and there is no description

of his spinal examination at this time. The approval of this procedure cannot be granted without further medical information.

___ has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. ___ has made no determinations regarding benefits available under the injured employee's policy.

As an officer of ___, I certify that there is no known conflict between the reviewer, ___ and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

___ is forwarding by mail and, in the case of time sensitive matters by facsimile, a copy of this finding to the treating doctor, payor and/or URA, patient and the TWCC.
